2. Toll Free Service Termination

Customers who terminate service prior to the end of the service term as selected by Customer will be liable for a cancellation charge which shall be calculated as follows: Cox shall rerate Customer's usage for services provided up to the date of termination by charging Customer the difference between the monthly rate for the service term selected by Customer and the rate for service applicable to the longest term plan for service the Customer could have satisfied prior to discontinuance and multiplying this difference by the number of minutes of service actually provided to Customer.
